

Payap Lanna - Frequently Asked Questions

Many questions can be answered by consulting the following FAQ pages. Here are a few sample questions answered in each FAQ:

- [SIL fonts in general](#)
 - *How can I type...?*
 - *How can I use font features?*
 - *Will you add support for character...?*
 - *Will you add support for script...?*
 - *Will you help me...?*
- [The SIL Open Font License \(OFL-FAQ\)](#)
 - *Can I use this font for...?*
 - *Can I modify the font and then include it in...*
 - *If I use the font on a web page do I have to include an acknowledgement?*
 - The full OFL-FAQ.txt is also included in the font package.

Here are a few of the most frequently asked questions specifically regarding Payap Lanna:

Why does this character sequence work in Graphite but not OpenType?

Because of the differences in Graphite and OpenType technologies some character sequences may render differently, although the Graphite is most likely to render them correctly. Applications may also differ in their OpenType support. Please let us know if there is a sequence that is not rendering properly so we can try and fix it. Some bugs may be in the shaping systems rather than in the font and may be out of our control.
